STRENGTH FOR THESE DAYS
From The Bible
God's free gift is the Life of the Ages, bestowed upon us in Christ Jesus our Lord. —(Acts 6:23)

As He promised in the days when He walked among men, Christ Jesus is with us today when we open our hearts to Him in faith and devotion, when we love Him as He loved us, sacrificing our self-will and self-indulgence as tiny tokens of the sacrifice He made for us on the Cross.

At Southside Co-Op Meeting

AT Co-Op Annual Meeting

4-H Club members from a crosssection of the Southside Electric Cooperative Service Area will present their top share-the-fun contestants at the annual meeting of the Co-op at Crewe on Saturday, Sept. 10.

ABOVE: DeWitt Whittington, 18, son of Mr. and Mrs. J. R. Whittington, of Amelia. He has been in the club work for nine years and in the electric project four years. His demonstration at the annual Co-Op meeting will be: "Light Bulbs, their development and use."

SCHOOL SESSION FOCUSES ATTENTION ON SCHOOL BUS LAW

Richmond, Va.- With some 800,000 children returning to school early this month, Dr. W. W. Wilkerson, Superintendent of Public Instruction and member of the Governor's Highway Safety Committee, today asked drivers to watch for them and to give them the right of way at all times, even though they may disobey traffic rules.

"We must face the fact that children sometimes fail to stop and think when exposed to traffic," he said, "which is all the more reason that we drivers must attempt to do some of their thinking for them." At the same time, he asked parents to outline clearly the dangers of traffic to their youngsters as they apply to those afoot, riding bicycles and using school buses.

In the last connection, Dr. Wilkerson stressed the Virginia law requiring motorists to come to a full stop when meeting, overtaking, or approaching from any direction a school bus which has halted to take on or discharge passengers. "The law requires more than a stop," he continued, "since the motorist must remain halted until the bus is again in motion and the road clear of children. There is no exception to this rule and failure to observe it can bring a reckless driving charge."

Raymond L. Wimbish, Supervisor of School Transportation, commented, "This law and the observance motorists have given it undoubtedly made it possible for us to operate a fleet of approximately 4,700 buses for more than four years without a fatality incidental to boarding or leaving a school bus, despite more than 60 million road crossings annually by some 400,000 school children."

TOPDRESSING OLD STANDS

Farmers are asking questions about fall topdressing of alfalfa with neglected fertilizer mixtures.

The specialists say it should be almost as effective to topdress alfalfa in the fall as during the winter or early spring.

Phosphate is not leached from the soil and potash moves slowly in lighter soils and practically none in the heavier soils. Both phosphate and potash will be retained over the winter and will be available when growth begins next spring.

A soil test will help the farmer decide the analysis or ratio of fertilizer to use for topdressing alfalfa. If soil test results are not available, the 0-1-2 ratio is the best choice for most conditions.

However, on soils low in potash and on lighter soils, the 0-1-3 is the better one to use. An 0-1-1 fertilizer should be used to topdress alfalfa only when it is known the soil is high in potash.

The specialists again emphasize the importance of using the proper rate of fertilizer per acre, and of applying the mixture after the last cutting but not later than October 15.
